DETAILED ACTION

Species 1: represented by figure 1

Species 2: represented by figure 1A

Species 3: represented by figure 2

Species 4: represented by figure 2A

Species 5: represented by figure 3

Species 6: represented by figure 4

Species 7: represented by figures 5, 5A

Species 8: represented by figure 6

Species 9: represented by figure 9

Species 10: represented by figure 10

Species 11: represented by figure 11

Species 12: represented by figure 12

Species 13: represented by figure 13

Species 14: represented by figure 14

Species 15: represented by figure 15

Species 16: represented by figure 16

Species 17: represented by figure 16A

Species 18: represented by figure 17

Art Unit: 3616

Species 19: represented by figure 18

Species 20: represented by figure 19

Species 21: represented by figure 20

Species 22: represented by figure 21

Species 23: represented by figure 24

Species 24: represented by figure 25

Species 25: represented by figure 26-27

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

Art Unit: 3616

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Mr. Brian Roffe on September 19, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
